

## ARIZONA'S SHARE OF APPROPRIATION

One of First on List With \$60,000 for  
Surveys—New Mexico Next  
With \$55,000

### HOW THE FUNDS ARE DIVIDED AMONG STATES

In the distribution of the government of the appropriation for public surveys, the state of Arizona has been liberally treated. It shares equally with Colorado more than one-sixth of the entire amount of the appropriation of \$700,000. After the deduction of amounts for surveys and other matters, the rest is distributed among the states as follows: Alaska, \$20,000; Arizona, \$60,000; California, \$25,000; Colorado, \$60,000; Idaho, \$25,000; Montana, \$50,000; Nebraska, \$25,000; New Mexico, \$55,000; Oregon, \$20,000; South Dakota, \$50,000; Utah, \$25,000; Washington, \$20,000; Wyoming, \$45,000.

With the work of the survey gen-

eral's office of this state brought up to date and kept there as it has been for several years, the present force is ample to handle all the work that will likely be brought into the office.

Sometime ago the statement was published, that with the lands, four or five million acres being selected by the state, the office of the surveyor general was likely to be swamped with business and that an extensive increase of the force would be necessary. But that is not the case. There will have to be a very small, if any, increase of the present corps to handle all the business that will arise in any contingency.

## Fierce Electric Storm at Benson Kills Two Horses and Knocks Youths Unconscious for Three Hours—Narrow Escape

Last Monday, during the terrific electrical storm at Benson, lightning struck a team of horses attached to a wagon loaded with ties, driven by Ellis Adams, who was accompanied by an assistant. Upon the storm's approach, young Adams and his companion got off the wagon and turned the horses' heads away from it. They were standing within a few feet of the horses when a bolt of lightning struck the animals, killing them instantly. Thence it leaped to the

wagon and scattered the ties in all directions. The young men were thrown about ten feet and rendered unconscious for three hours. Young Adams revived first, and pulled his companion out of a pool of water that all but covered the man's face. Both of them lost the power of speech for a considerable period, and were brought to Benson for treatment of the burns, which extended down their limbs from the hips.

## Mexican Doctor Arrested at Tempe for Practicing Without License —Must Pass Examination of State of Arizona

Dr. Albert Diaz Viscarra, a homeopath of Tempe was arrested yesterday afternoon for practicing without a license and is being held in the county jail awaiting his hearing. Viscarra, who claims to be a relative of General Felix Diaz and Profrío Diaz, has been warned a number of times that he must not practice medicine until he has passed the state examination but this warning, it is said, he failed to heed, and when arrested yesterday he expressed indignation that he should be placed under arrest for such a small

offense. He states that he did not know it was necessary to have a license to practice in Arizona.

The arrest of Viscarra was made by Marshal R. C. Estrada of Tempe, and after spending an hour in the jail in that city the doctor was transferred to the county jail.

Send your wild animal skins to A H Hilgner Mer. Co. San Antonio N. M. They have outlet to manufacturers in Europe and always net you highest prices. Send for pamphlet. Learn how to take care of your catch.

## Survey on Railroad to Ajos Prog- gressing Rapidly—Engineers are Rushing Work

The preliminary survey for the Calumet and Arizona to Ajo has reached Indian Oasis, a distance of about 40 miles from Tucson. The engineers are making rapid progress.

The route may be laid through Quitova pass.

## ARIZONA NEWS OF INTEREST

Newsy Notes From All Over Arizona  
Carefully Condensed for The  
"Prospector" Readers

A telephone line is being constructed from Globe and Miami to the Ray district. Work was begun on the line last week and it is anticipated that it will be finished within the next few weeks. Superintendent Carvin of Denver, who is in charge of the work, went over the road to inspect the line.

D C Jackling has become the operating head of the General Petroleum company of California. This became known when L W Cates, manager of the Ray Consolidated properties in Arizona, accompanied by Mill Superintendent Franklin and Smelter Expert Gormley, left Ray for Salt Lake City for a conference with Mr Jackling.

Tea's made at Harvard university show conclusively that the ore deposits in the Cunningham Pass near Yuma section are primary and not secondary. A number of specimens were taken from various levels in Tom Dodson's mine and tested by a new scientific process. The result of the test was very gratifying. Since the deposits are primary and not secondary the chances are that they will continue to depth and not diminish in value. Most of the veins in the Cunningham Pass district are narrow but the values are invariably good.

For more than a week the new steam mill of the Y P Mining company, on the Senator mine, near Phoenix, has been in operation. It is treating 20 tons of ore each day. Within a day or two it will be running

The fly swatter is finding this the best season of the year for activity. Due to rains and cloudy weather, the flies have been exceptionally annoying of late and have been in evidence in large numbers than at any other time in the year. Swat 'em!

SPECIAL—27 inch Embroidery Flouncing at 35c a yard, at Macbomleh Mercantile Company.

General Manager Henry Street, of the Boquillas Land & Cattle Co., was a business visitor in the city today from the ranch at Jastro.

Splendid business opportunity in your territory. Big immediate returns. No competition. Only small investment required for full control. Write for particulars. Orto Sano, 1510 Vine Street, Denver, Colorado.

Jeff Milton, the well known Chinese Inspector at Fairbank, was a brief visitor in the city today.

H. T. Fisher and wife of Fairbank, were in town today and returned home this afternoon.

President Douglas Gray of the Macbomleh Mercantile Co., returned home today from a brief business visit to Bi-bee.

Don't forget the summer sale of knit underwear at Rock's.

## FORT HUACHUCA AS BRIGADE POST

Will Probably be Designated Early in  
Fall—Will Mean Stationing of  
3500 Men at the Fort

### RIFLE PRACTICE BEING HELD DAILY

Tentative plans for the enlargement of Fort Huachuca, ordered some time ago by the war department at Washington, have been sent to Washington. The plans call for equipment for a brigade post. The war department will take prompt action on the plans and it is probable that Fort Huachuca will be designated as a brigade post early in the fall. This will mean that 3500 officers and men will be stationed here.

The extensive improvements that are now under way are coming along well and all will be completed, with the exception of the military reservation sewer system early in the fall.

If the fort is designated as a brigade post the total expenditure in improvements and new buildings, including the present appropriations, will run close to half a million dollars.

The troops at the fort are still engaged in rifle practice. Besides the men, the officers have taken up revolver practice at the various ranges. The rifle practice is from the 300 to the 1000 yard range and the officers hope to relay the border patrols back to the fort so that the entire regiment will have had rifle practice by fall.

Why worry when you can smile after taking Dr. Miller's Laxative Tablets? They do not gripe. [Advertisement.]

## Alleged Prescott Restauranters Are Violating Eight-Hour Law for Women

Prescott restauranters are ignoring the eight-hour law for women, which went into effect last Sunday, according to arrivals from the mile high city.

It is stated that attorneys have told them that the law is unconstitutional because it makes an exception of railroad eating houses but includes all other restaurants. This is discrimination, it is claimed, and

therefore in conflict with the constitution. Some lawyers are of the opinion that the law is class legislation because it exempts women in certain lines of employment from its provisions.

A test case will probably be made. So far no one has filed a complaint with the county attorney.—Republican.

## Yuma County to Vote on Bonds for Road Building Good Roads Movements

Whether Yuma county shall issue \$500,000 worth of bonds for the purpose of building new roads and improving her present highways, will be decided at a special election called for September 27.

Practically no opposition to the bond issue has been heard. It is predicted that the issue will be voted ten to one. A substantial argument in favor of the bonds is that through the

expenditure of \$500,000 on roads, Yuma county will receive a tremendous amount of advertising.

The bonds will bear interest at five per cent and mature at the rate of \$25,000 a year after twenty years.

Ten dollars a day easily made by local agent. Write for full information at once. Arizona Sales Agency Phoenix, Arizona.

## Nineteen More Licenses For Auto- mobiles Issued—No Diminution in Increase Of Machines

Quite a number of licenses have been issued lately for automobiles, indicating that there is no diminution in the continued increase in the number in the state: No 3196, J. A. Miller Phoenix; 3197, R. H. Sood, Palo Verde; 3198, Harry Taffe, Phoenix; 3199, T. Young, Cocho; 3200, Bisbee Dye Works, Bisbee; 3201, Carl L. Smith, Douglas; 3202, Harry Marlin Safford; 3203, Joe T. Tripple, Douglas; 3204, Sam F. Webb, Cashier; 3205, I. S. Cochrane, Globe; 3206, Arizona Meats Co, Douglas; 3207, Arizona Meats

Co., Douglas; 3208, John Igo, Douglas; 3209, Daniel P. De Lao, Douglas; 3210, I. B. Blake, Globe; 3211, George T. Hoffman, Florence; 3212, P. L. McCabe, Douglas; 3213, R. J. Holmes Phoenix; 3214, W. J. Womel, Douglas.

Licenses to drive automobiles in public cars throughout the state were issued also from the office of the secretary of state to the following three drivers: No. 558, F. S. Lambert, Phoenix; 559, William Hock, Safford; 560, Frank Hart, Douglas.
